DETAILED ACTION

1. This Office Action is in response to the communication filed on March 4, 2002, which paper has been placed of record in the file.
2. Claims 1-35 are pending in this application.

Election/Restriction

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-18 drawn to a system for managing newly opened credit account, classified in class 709, subclass 201.
 - II. Claims 19-35 drawn to a method for managing newly opened credit account, classified in class 705, subclass 38.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another materially different process (MPEP 806.05(e)). In the instant case, the invention I drawn to a system for managing newly opened credit account, in contrast, the invention II drawn to a method for managing newly opened credit account. Therefore, the system as claimed can be used to practice another materially different method.
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
